Create one 16:9 illustration in the same art style and with the same characters as the previous images.

Scene: a single fresh green sprout growing out of a crack in an old broken hourglass, soft morning sunlight behind it, the green sprout is the only vivid color in the image

Style: surreal editorial illustration, semi-realistic graphic novel style, detailed ink linework with digital painting, slightly exaggerated uncanny proportions with oversized heads and long faces, symbolic visual metaphor, muted desaturated palette of sepia, umber, olive and dusty gray, warm dim lamplight with deep shadows and soft vignette, quiet melancholic contemplative mood, cinematic composition, subtle paper texture, no text, 16:9 aspect ratio

Avoid: text, letters, captions, watermark, logo, blood, gore, weapons, bright saturated colors, anime, cute chibi, 3d render, photorealistic photo
